 New Reminder

**Let's talk about
discovery**

First you do this...

Then you do this...

Then you get upsold the premium upgrade...

**Walkthroughs aren't
great for discovery**

Welcome to Reminders

All New

A completely rebuilt app that makes it easier than ever to create and organise reminders.

Quick Creation

Just type, talk to Siri or tap the new toolbar to create reminders. Siri also suggests reminders found in Messages.

Easy Organising

Use automatic smart lists like Today and Flagged, or organise by grouping lists or reminders.

Welcome to Apple Podcasts

Powerful Stories

Discover free audio stories that entertain, inform and inspire.

Something for Everyone

Explore shows you'll love that range from comedy to sport.

Listen Anytime, Anywhere

Just tap to play an episode or download to listen offline.

Welcome to Stocks

All-New Design

Easily view stock quotes,
interactive charts and top news.

Business News

Read beautifully formatted
stories from Apple News.

iPhone, iPad and Mac

Use iCloud to view stocks and
news on all your devices.

What's New in Maps

Look Around

Explore detailed 3D imagery in San Francisco, Las Vegas and Honolulu

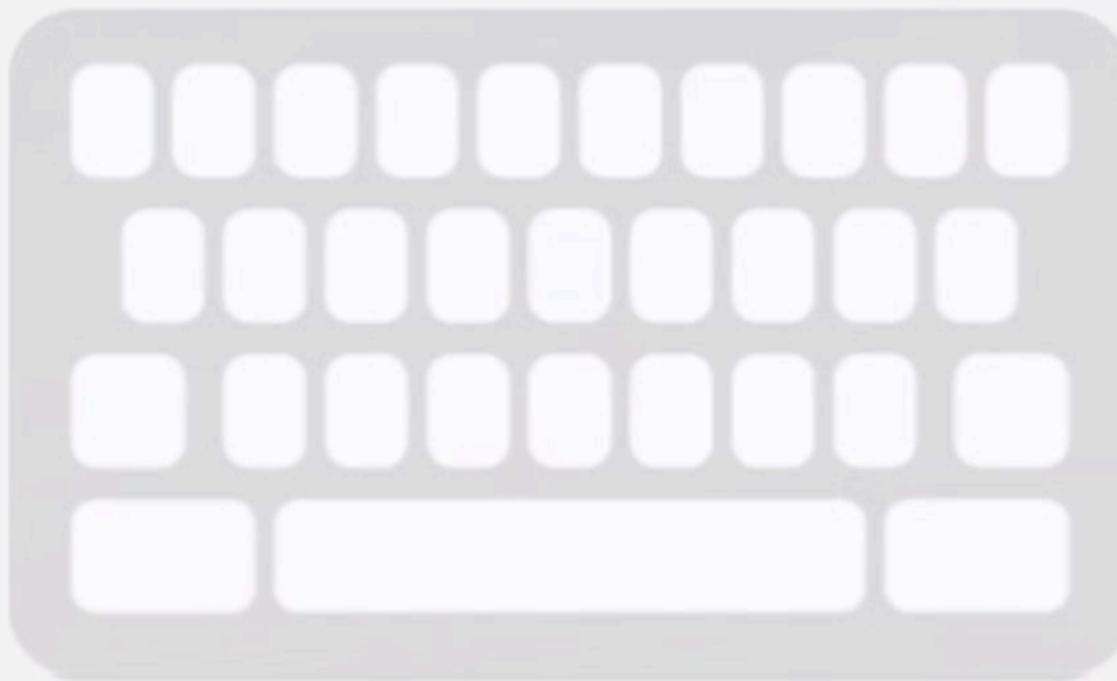

Favourites & Collections

Quick access to frequent places, and create lists to share with friends

Siri Suggestions

Siri can provide suggestions based on app usage across your devices

Slide your finger across the letters to
compose a word

Continue

Some things you can ask me:

Phone

"Call Andrew"

FaceTime

"FaceTime Claire"

Apps

"Launch Photos"

Messages

"Tell Susan I'll be right there"

Apple Pay

"Where can I use Apple Pay..."

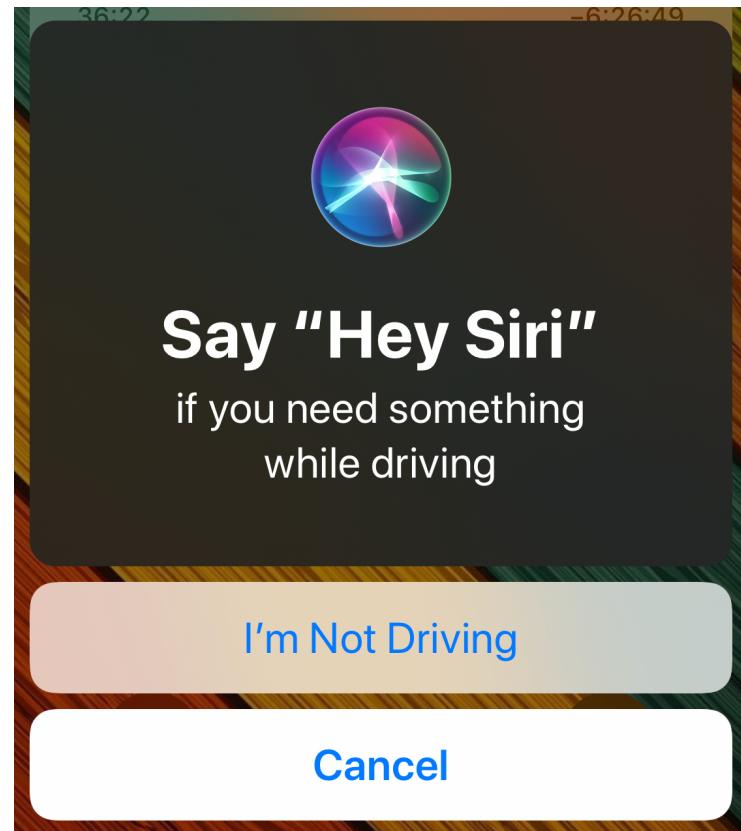

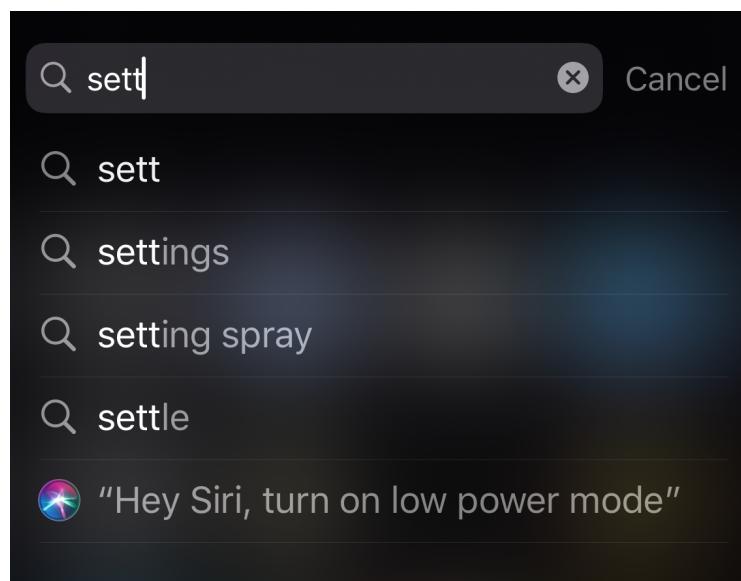

Talk instead of type

Text without stopping what you're doing. For example, say "Hey Siri, tell Julianne I'm running late".

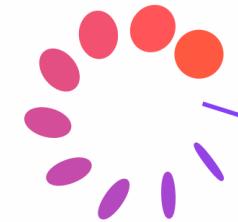

Set Up Your Medical ID

In an emergency, first responders can look at your Medical ID to get life-saving information.

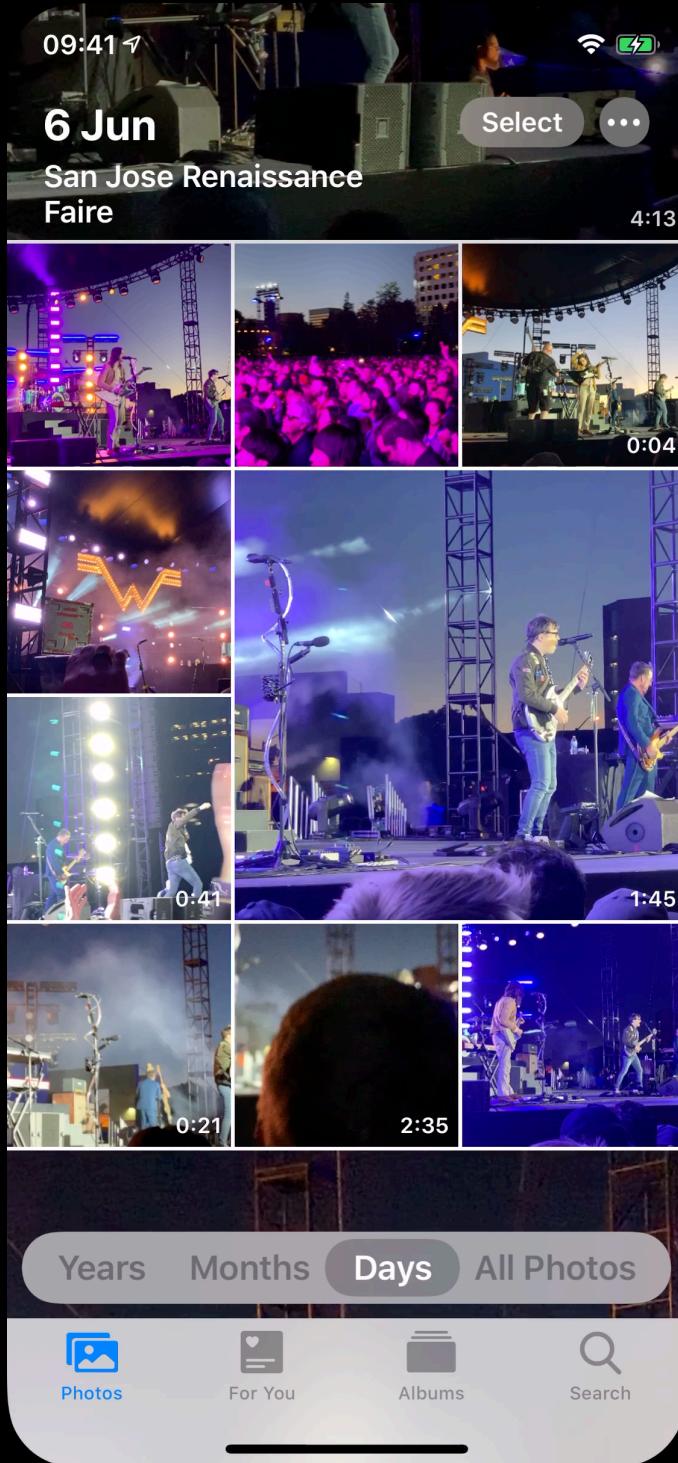

[Get Started](#)

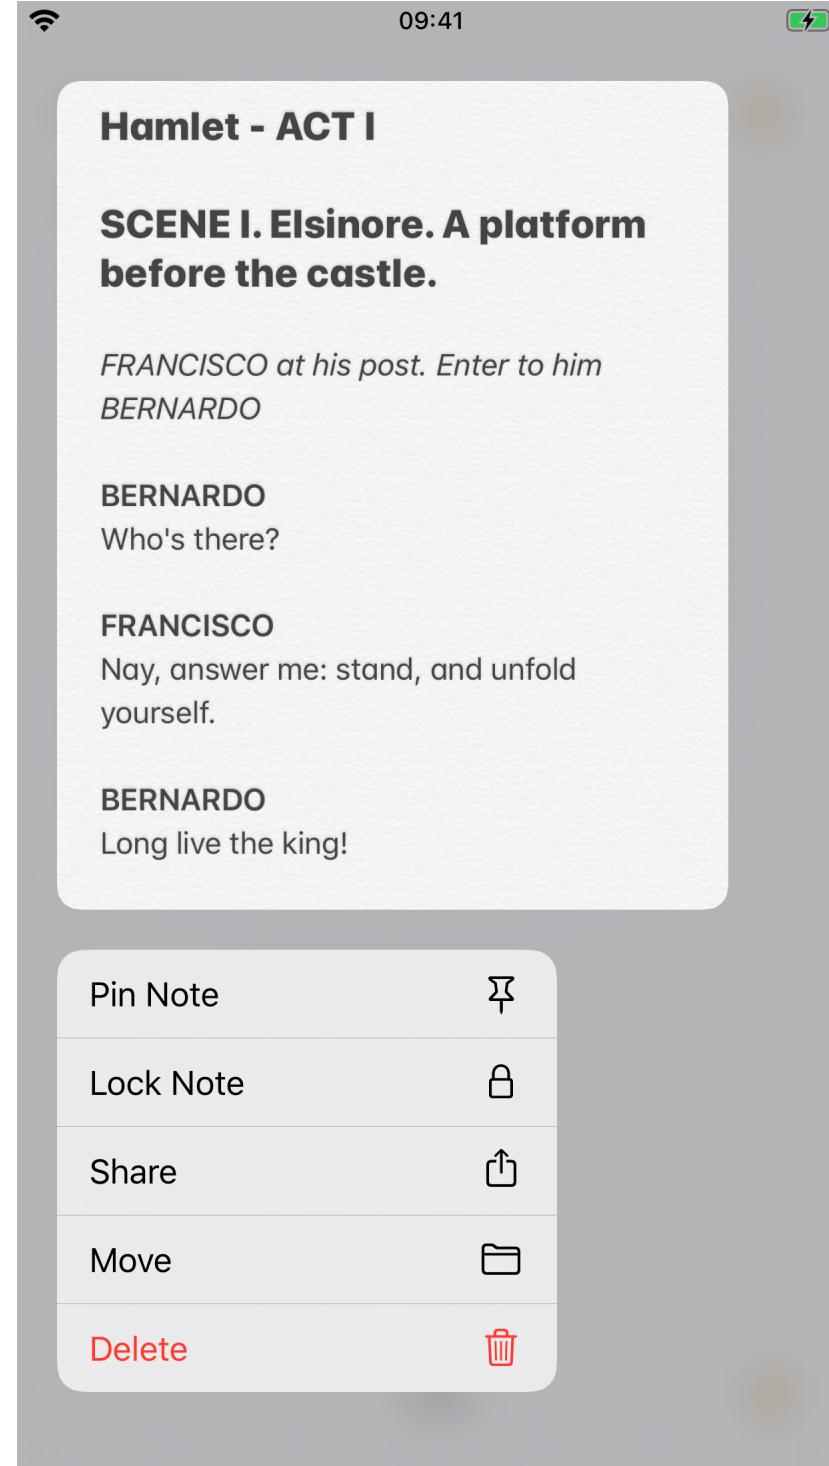

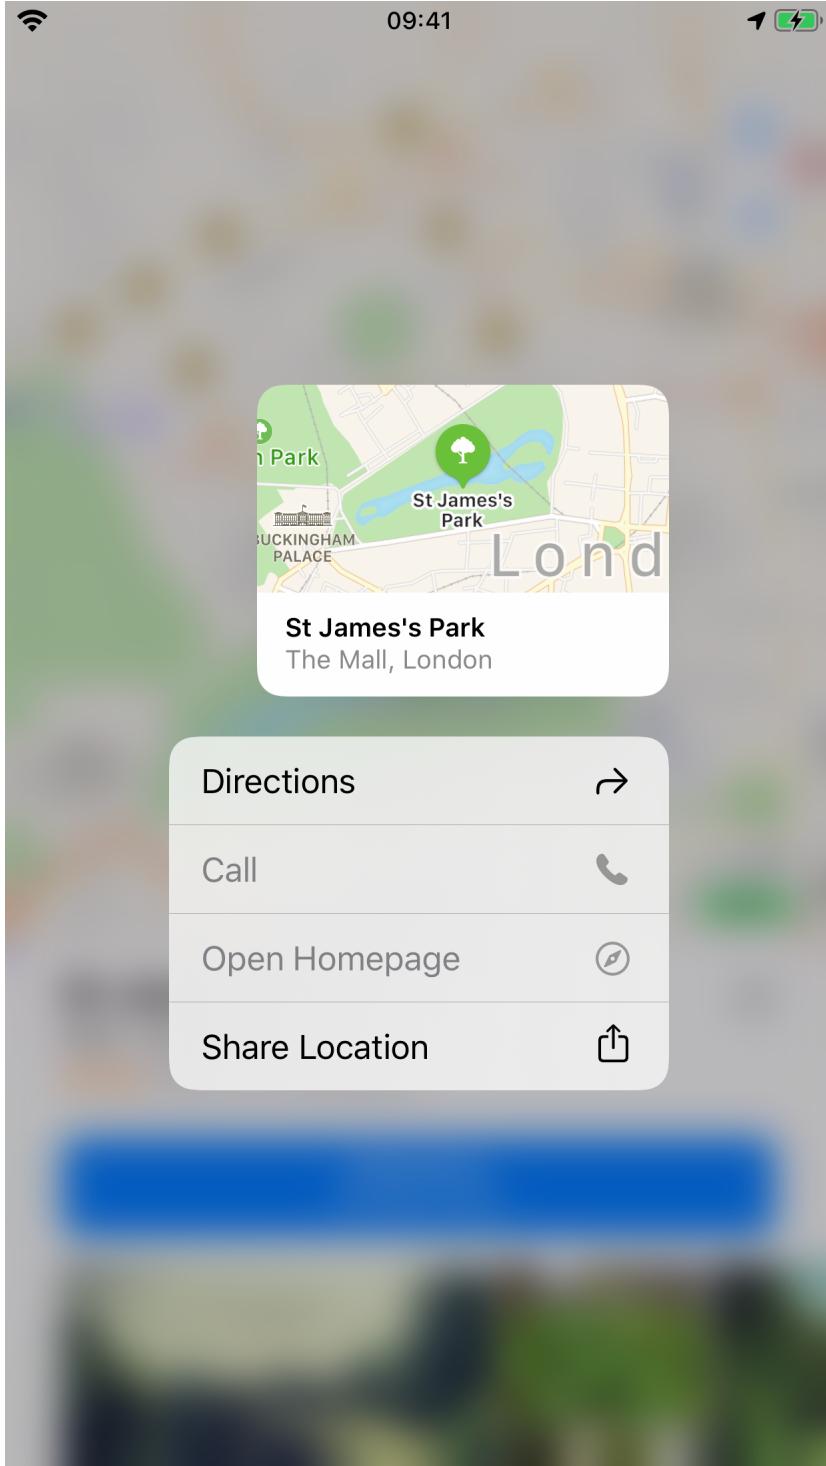

Set Up Cycle Tracking

Tracking your menstrual cycle can help you understand your overall health.
